This Product Disclosure Statement ('PDS') provides a summary of significant information about the Solaris High Alpha Australian Equity Fund (ARSN 128 860 159) ('the Fund') together with references to additional important information about the Fund which is available at www.solariswealth.com.au or by calling us on 1300 010 311. It is important that you read this PDS and the additional information (which forms part of this PDS) before making a decision about the Fund.

The information in the PDS is general information only and does not take into consideration your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances.

An investment in the Fund is an investment in a registered managed investment scheme. An investment in the Fund is not a bank deposit, bank security or other bank liability. There is no guarantee of the repayment of capital from the Fund or the investment performance of the Fund.

The offer made in this PDS is available only to persons receiving this PDS (electronically or otherwise) within Australia. Applications from outside Australia will not be accepted.

Updated Information

Information in this PDS may change. Any updates to information that is not materially adverse to investors will be provided at www.solariswealth.com.au. Please check the website or call us or your financial adviser for any updates prior to investing. A paper copy of any updates will be provided free of charge upon request.

1 About Pinnacle Fund Services Limited

Pinnacle Fund Services Limited ACN 082 494 362 AFSL 238371 ('Responsible Entity', 'RE', 'we', 'our' or 'us') is the responsible entity of the Fund. Pinnacle Fund Services Limited is wholly owned by Pinnacle Investment Management Limited ABN 66 109 659 109 ('Pinnacle'). Pinnacle supports the development of high quality investment management businesses and is the distributor of the Fund.

The RE has appointed Solaris Investment Management Limited ABN 72 128 512 621 ('Solaris') as the Investment Manager of the Fund. Solaris is a boutique, Australian owned, Australian equities investment manager. Solaris' employees are majority equity partners in the business.

Investment style of Solaris

Solaris' investment team believes there are opportunities in both value and growth stocks. Solaris has no consistent bias towards either value or growth stocks. Therefore, their style can be described as 'style neutral' or 'style agnostic'.

Stock selection is Solaris' main area of expertise.

Using fundamental analysis, Solaris selects stocks to exploit market inefficiencies in forecasts and valuations. Investment decisions are supported by detailed analysis of the securities and key financial markets with an eye on global perspectives.

Solaris applies strict risk controls to minimise the downside risk.

Solaris' competitive advantage

The Solaris investment team is a stable, experienced team comprised of 9 experienced investment professionals who have an average investment experience of 19 years and have, on average, been with the team for 15 years.

Solaris' analysts are the portfolio managers. In other words, if an analyst decides a stock should go into the portfolio, that analyst becomes responsible for the performance of that investment.

Fundamental analysis is optimised by analysts being empowered and rewarded as portfolio managers.

Analyst management of the portfolio is the most efficient way to capture identified market inefficiencies because the Solaris analyst is the person most familiar with the stock.

The investors' interests are aligned with the investment manager's interests. Solaris team members are remunerated according to individual and team performance. The majority of the investment team are investors in Solaris products and owners of Solaris.

Solaris has a strong track record in both rising and falling equities markets.

2 How the Solaris High Alpha Australian Equity Fund works

The Fund is an Australian registered managed investment scheme in which amounts invested by individual investors are pooled to buy assets on behalf of all investors in the Fund.

When you invest in the Fund you are issued with Units. Your Units represent a beneficial interest in the Fund's assets as a whole. Your investment is not a direct investment in specific Fund assets. The value of your investment changes whenever Unit prices are recalculated. The price of Units will vary as the market value of the Fund's assets rise or fall. The most recent Unit prices are available at www.solariswealth.com.au.

We issue two classes of units in the Fund. These classes of units have different rights and restrictions. We are required by the Corporations Act to treat all investors within a class of units equally and investors in different classes fairly.

This PDS applies to Class B, being the High Alpha Fee Class.

Minimum initial investment	
Indirect investors via IDPS	No minimum investment. Refer to your IDPS operator's requirements.
Direct investors	\$1,000,000. However, the RE has discretion to accept lower amounts.
Minimum additional investment	You can increase your investment in the Fund by applying to acquire additional Units, subject to the minimum additional investment amounts
Indirect investors via IDPS	No minimum investment. Refer to your IDPS operator's requirements.
Direct investors	\$50,000. However, the RE has discretion to accept lower amounts
Minimum investment balance	
Indirect investors via IDPS	No minimum investment. Refer to your IDPS operator's requirements.
Direct investors	\$1,000,000. However, the RE has discretion to permit a lower minimum investment balance
Unit prices	Unit prices are calculated daily on each Business Day.
Income distribution	Semi-annually for the periods ending 31 December and 30 June each year, where income is available. Where distributions are paid, you can elect to either have your distributions automatically reinvested or paid directly into a nominated Australian financial institution account.
Withdrawal	You can decrease your investment in the Fund by withdrawing some or all of your Units.

	<p>Written withdrawal requests should be lodged by mail or by facsimile with the RE prior to 12 noon (Sydney time) on any Business Day. The withdrawal amount payable is calculated using the withdrawal price as at close of business on that day. If a withdrawal request is received after 12 noon (Sydney time) or on a non-Business Day, it is deemed to be received the following Business Day, and the withdrawal amount payable is calculated using the Unit price for that Business Day.</p> <p>The RE endeavours to ensure that all withdrawal proceeds are paid within 7 days from the date of receipt of the withdrawal request. Investors should note however, that the Fund's constitution allows up to 40 days to pay withdrawal proceeds after a withdrawal request is processed. In some circumstances, such as when there is a freeze on withdrawals, investors may not be able to withdraw their investment within the usual period upon request.</p>
Cooling off period	A cooling off period applies to your investment. See section 8 'How to apply' for details

You should read the important information about 'How the Solaris High Alpha Australian Equity Fund works' before making a decision. Go to 'Additional Information to the PDS' at www.solariswealth.com.au. The material relating to 'How the Solaris High Alpha Australian Equity Fund works' may change between the time when you read this PDS and the day when you sign the Application Form.

3 Benefits of investing in the Solaris High Alpha Australian Equity Fund

A summary of the features and benefits of investing in the Fund is as follows:

Management expertise	The investment and management expertise of Solaris, a boutique Australian owned equities fund manager providing access to investment opportunities and markets that individual investors usually cannot achieve on their own.
Diversification	The Fund's investments will be spread across a carefully researched and actively managed portfolio of up to 40 different company stocks. This diversification of investments can help reduce overall investment risk.
Investment approach	Solaris selects a portfolio of securities using fundamental analysis to exploit market inefficiencies in forecasts and valuations. Solaris' investment approach involves a detailed analysis of the securities and key financial markets, with an eye on global perspectives.
Investment opportunities	Access to wholesale investment opportunities that may not generally be available to private investors.
Resources	Access to full-time research resources, a rigorous investment process, highly developed risk management expertise, and advanced trading systems and technology.

4 Risks of managed investment schemes

Investors need to understand the investment risks involved before investing in the Fund.

All investments carry risk. Different strategies can carry different levels of risk, depending on the assets that make up that strategy. Assets with the highest long-term returns may also carry the highest level of risk. The value of investments and the level of returns will vary. Future returns may differ from past returns and past performance is not a reliable guide to future performance.

Neither the RE, Solaris, their directors, associates nor any of their related bodies corporate guarantee the success of the Fund, the repayment of capital or any particular rate of capital or income return. Investments in the Fund are not guaranteed or underwritten by the RE or Solaris or any other person or party and you may lose some or all of your investment.

Some of the key risks that may impact the value of your investment in the Fund are outlined below. You need to consider the level of risk that you are comfortable with, taking into account factors such as your age, your investment time frame, other assets and investments you have and your overall tolerance for risk.

Market risk

Movements in financial markets due to economic, environmental or political conditions, or from general market sentiment, will result in the value of the Fund's underlying assets, and hence the value of your investment, moving up or down.

General investment risk

Investment in shares, in general, carries a higher level of risk than investments in many other asset classes such as cash or fixed interest.

Specific investment risk

Investments in shares in a company can fall in value for many reasons such as changes in internal operations, management or the business environment in which the company operates. These factors may not be predictable or identifiable prior to their impact on the market value of stocks.

Counterparty risk

This is the risk that any of the counterparties which the Fund deals with may default on their obligations to pay monies or deliver securities to the Fund. This may result in a loss.

Investment Manager risk

The success of the Fund depends upon Solaris' ability to develop and implement investment processes and identify investment opportunities that achieve the investment objectives of the Fund. Matters such as the loss of key staff, Solaris' replacement as investment manager of the Fund, or Solaris' failure to perform as expected may negatively impact on returns, risks and/or liquidity.

Liquidity risk

Whilst the Fund is exposed to assets traded on any Australian exchange which are generally considered liquid, under extreme market conditions there is a risk that investments cannot be readily converted into cash or at an appropriate price. In these circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations within required timeframes, including payment of withdrawals, or it may be required to sell assets at a substantial loss in order to do so.

Derivative risk

Solaris may use derivatives to more efficiently manage the Fund's portfolio and its risks. For example, the use of derivatives may be a more cost effective way of gaining exposure to a particular asset class or sector as compared to holding a physical asset.

The value of derivatives can be influenced by a number of factors, and risks associated with their use include movements in the value of the underlying asset, difficulty in liquidating the derivative and counterparty risk.

Regulatory risk

The value of some investments may be adversely affected by changes in government policies, regulations and laws, including tax laws and laws affecting registered managed investment schemes.

5 How we invest your money

Before deciding whether to apply for Units, you should consider the likely investment return, the risks involved in investing in Units and your investment time frame.

Objective	Outperformance of the S&P/ASX 200 Accumulation Index over rolling 3 year periods.
Strategy	The Fund will hold between 20 and 40 securities. The Fund can invest in listed Australian securities, as well as in securities expected to be listed on an Australian exchange. In addition, the Fund will seek to remain fully invested with an allowable maximum cash exposure of 5% of total assets at any one time.
Asset classes and allocation	The Fund is subject to the following parameters: <ul style="list-style-type: none">• Cash¹ 0-5%.• Australian shares 95-100% (including derivatives).
Suitable for	Investors looking for an equities based investment.
Risk level	Aggressive. This risk level is aimed at investors who are willing to take more risk in search of greater returns. Aggressive investors are comfortable with volatility and with the possibility of negative returns and aim to invest over a longer period. Investment in shares, in general, carries a higher level of risk than investments in many other asset classes such as cash or fixed interest.
Minimum suggested timeframe for holding the investment	Medium to Long Term (i.e. 5-10 years +).
Switching	Investors may choose to switch all or part of their investment in the Fund to another class of units in the Fund. Switching is treated as a withdrawal from one class and an investment in another. The rules applicable to initial investments and withdrawals apply except that the buy/sell costs may be waived.
Labour standards, environmental, social and ethical considerations	Neither the RE or Solaris explicitly takes into account these considerations or has a specific methodology for the extent to which these factors are considered, however Solaris does use them as a broad component of the qualitative criteria used to value a company prior to making investment decisions.
Up to date information	Subject to the Corporations Act and the Fund's constitution the RE has the discretion to make changes to the Fund at any time. We will inform investors of any material changes to the Fund's details in accordance with the Corporations Act and the Fund's constitution, as applicable. For up to date information about the Fund or Units in the Fund, please refer to the website www.solariswealth.com.au .

¹ Cash available for investment and not covered by equity futures.

6 Fees and costs

The following consumer advisory warning is required under the Corporations Act. The purpose of this warning is to emphasise to you the importance of considering 'value for money' when selecting a managed investment. The consumer advisory warning also refers to managed investment calculators, located on the Australian Securities and Investments Commission's website, which will allow you to make individual comparisons.

Consumer Advisory Warning

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The table below shows the fees and other costs that you may be charged in relation to an investment in Units. These fees and costs may be deducted from your investment, from the returns on your investment or from the Fund's assets as a whole. Taxes are set out in another part of this document. You should read all of the information about fees and costs because it is important to understand their impact on your investment.

You can also use this information to compare the fees and costs between different simple managed investment schemes.

Type of fee or cost	Amount ¹
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs	
The fees and costs for managing your investment.	Base Fee of 0.90% PLUS A Performance Fee of 20% of Outperformance of the Benchmark plus 2%.

¹ All figures disclosed include the net effect of GST and RITC.

Example of annual fees and costs

The following table provides an example of how the fees and costs of Units can affect your investment over a one year period. You should use this table to compare this product with other managed investment products. Please note the amounts below are estimates only and may not reflect the actual cost of investing in Units.

Example	Balance of \$1,000,000 with a total contribution of \$50,000 during the year.	
Contribution fees	Nil	For every additional \$50,000 you put in you will be charged \$0.
Plus management costs	a. Base Fee $\$1,000,000 \times 0.90\% = \$9,000$ b. Estimated Performance Fee at 20% $\$1,000,000 \times 5\% \times 20\% = \$10,000^*$	For every \$1,000,000 you have in the Fund you will be charged \$19,000 each year.
EQUALS cost of Fund	If you had an investment of \$1,000,000 at the beginning of the year and you put in an additional \$50,000 during that year you would be charged fees of \$19,000. ^{^**}	

	What it costs you will also depend on the investment option you choose and the fees you negotiate.
--	---

^ Additional fees may apply including a buy/sell spread.

* This example assumes that the Outperformance of 5% is net of the Base Fee. The example is provided for illustrative purposes only and is not an indication of actual or future performance. The actual Performance Fee (and therefore management costs) charged in the future may increase or decrease over time depending on the performance of the Fund.

** This example assumes that the \$50,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$1,000,000 balance only.

We reserve the right to change fees and other costs without your consent, but subject to any limitations under the Corporations Act and other applicable laws. We will give you 30 days notice prior to increasing fees.

Different fees apply to units in different classes. Fees may be individually negotiated with wholesale and institutional clients.

WARNING: Additional fees may be payable to a financial adviser if consulted. You should refer to the statement of advice which sets out details of the applicable fees.

Base Fee

The Base Fee of 0.90% p.a. of the net asset value of the class is payable to Solaris for managing your investment. This fee accrues daily and is payable monthly in arrears. From this, Solaris will pay all the fees and costs associated with managing your investment including paying the RE a fee for acting as responsible entity (but excluding transaction costs and extraordinary expenses).

Performance Fee

Management costs also includes a Performance Fee. Depending on how well the Fund performs Solaris may be entitled to 20% of the Outperformance.

Buy/Sell spread

When you apply for Units or withdraw all or part of your investment you will incur a buy/sell spread. This buy/sell spread is currently 0.30% of the value of the application or withdrawal amount.

You should read the important information about 'Fees and Costs' before making a decision. Go to 'Additional Information to the PDS' at www.solariswealth.com.au. The material relating to 'Fees and Costs' may change between the time when you read this PDS and the day when you sign the Application Form.

7 How managed investment schemes are taxed

WARNING: Investing in a registered managed investment scheme is likely to have tax consequences. You are strongly advised to seek professional tax advice.

The taxation implications of investing in the Fund can be complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units on capital account or revenue account.

The following tax comments have been prepared on the assumption that:

- the investor holds the units on capital account as a long term investment;
- the Fund qualifies as an attribution managed investment trust ('AMIT') within the meaning of section 995-1 of the Income Tax Assessment Act 1997 and the Responsible Entity of the Fund elects to apply the AMIT regime to the Fund; and
- the Fund has made an irrevocable "capital election" to apply the Capital Gains Tax ("CGT") provisions pursuant to section 275-115 of the Income Tax Assessment Act 1997.

Income of the Fund

The Fund has been established as an Australian resident unit trust. The Fund is required to determine its tax or income components (e.g. assessable income, exempt income, non-assessable non-exempt income, tax offsets and credits of different characters) for the financial year. The investor will be provided with a statement for tax purposes after 30 June each year to assist the investor in determining their tax position. This tax statement will advise the investor of the share of the tax or income components of the Fund (if any) to include in the investor's tax return. Generally, no Australian income tax will be payable by the Responsible Entity of the Fund where investors are attributed with all tax or income components of the Fund each year.

The Fund's investments and activities are likely to give rise to income, dividends, capital gains and losses.

Taxation of Australian resident investors

Investors are generally subject to tax on their share of the tax or income components from the Fund each year. Investors are treated as having derived their share of the tax or income components of the Fund directly on a flow through basis. The way in which investors are taxed will depend on the character of the income they receive (for example, franked dividends to which franking credits may attach, capital gains, foreign income to which foreign income tax offsets may attach, or interest income). We will provide you with an annual taxation statement after 30 June each year. The annual taxation statement will outline your share of the tax or income components of the Fund to which you are entitled to in that financial year, including any foreign income tax offsets and franking credit entitlements.

To the extent that an investor's share of the net income of the Fund is attributable to a capital gain made by the Fund, the investor will include the capital gain in their assessable income. Certain investors may be entitled to apply the relevant Capital Gains Tax ('CGT') discount to work out the net capital gain to include in their assessable income. In normal circumstances, you should expect the Fund to derive income and/or capital gains each year.

If the Responsible Entity discovers understatements or overstatements of taxable income and tax offsets in prior years, the

Responsible Entity has the ability under the AMIT regime to deal with these understatements and overstatements in the financial year in which they are discovered. That is, the distribution statements in the discovery year may be adjusted to take into account these understatements or overstatements from a prior financial year, rather than re-issuing amended distribution statements for the prior financial year to which the understatements or overstatements relate to.

The amount of the tax or income components of the Fund which the investor is required to include in their assessable income may be different to the cash distributions received by an investor in respect of their units. This is because the distributions received on the units is determined by reference to the returns received in respect of the Fund, whereas the tax or income components of the Fund is determined by reference to the overall tax position of that Fund.

An investor may be required to make, in certain circumstances, both upward and downward adjustments to the cost or cost base of their unit holdings. This occurs where during a financial year there is a difference between:

- (a) the total of the amounts (money or property) that an investor is entitled to from the Fund and the tax offsets that are allocated to an investor during the year; and
- (b) the tax or income components included in that investor's assessable income or non-assessable non-exempt income.

If the amount in (a) exceeds the amount in (b), the cost or cost base of the investor's units in the Fund should be reduced by the excess amount. This results in either an increased capital gain, or a reduced capital loss, upon the subsequent disposal of the investor's units in the Fund. Should the cost base be reduced to below zero, the amount in excess of the cost base should be a capital gain that is to be included in the investor's taxable income.

Conversely, where the amount in (a) falls short of the amounts in (b) during a financial year, the cost or cost base of the investor's units in the Fund should be increased by the shortfall amount.

Withdrawals from the Fund and disposal of units

Withdrawal or disposal of a unit in the Fund is the disposal or cancellation of a CGT asset by an investor and a CGT event for tax purposes. To the extent that the proceeds exceed the cost base on the unit, you will make a capital gain. However, if the proceeds are less than your reduced cost base, you will make a capital loss. Generally, a capital loss can only be used to offset against capital gains derived in the current or a future tax year.

An individual, trust or complying superannuation entity or a life insurance company that holds their units as a complying superannuation/FHSA asset may be able to claim the benefit of the CGT discount if they have held the units for over 12 months. A corporate investor cannot claim the benefit of the CGT discount.

Non-resident individual unit holders

The above taxation summary is only for investors who are residents of Australia for tax purposes. The tax treatment of non-resident investors in the Fund depends on the investor's particular circumstances and the provisions of the relevant Double Tax Agreement between Australia and the country of residence. It is important that non-resident investors seek independent professional taxation advice before investing in the Fund.

The Fund may be required to withhold tax on part or all of the distributions made to non-resident investors.

Goods and Services Tax ('GST')

Unless otherwise stated, the fees quoted in the PDS and this Additional Information to the PDS are inclusive of the net effect of GST and RITC.

Tax File Numbers and Australian Business Numbers

You are not required to quote your Tax File Number ('TFN') or, if you have one, an Australian Business Number ('ABN')¹ or claim an exemption from providing a TFN.

However, if a TFN or ABN is not provided or an exemption is not claimed, we are required by law to withhold tax from distributions at the top marginal tax rate plus the Medicare Levy. If you are making this investment on behalf of a business or enterprise you carry on, you may quote your ABN instead of a TFN.

Tax reforms

The expected tax implications of investing in the Fund may change as a result of changes in the taxation laws and interpretation of them by the Courts and/or the Australian Tax Office.

It is recommended that investors obtain independent taxation advice that takes into account your specific circumstances regarding investing in the Fund and the potential application of any changes in the tax law.

Foreign Account Tax Compliance Act ('FATCA') and OECD Common Reporting Standard ('CRS')

If you are not an Australian resident for tax purposes, you should note that the Fund is required to comply with reporting requirements under FATCA and CRS. It is expected that under these obligations, we will have to obtain and disclose information about certain investors to the ATO or other foreign tax authorities. In the event that the Fund suffers any amount of withholding tax (including FATCA withholding tax) and/or penalties, neither the Fund nor the Responsible Entity acting on behalf of the Fund will be required to compensate you for any such tax, except in exceptional circumstances.

8 How to apply

Direct investors

A copy of the Application Form can be obtained by contacting us on 1300 010 311 or by email to distribution@pinnacleinvestment.com.au.

¹ Under AML/CTF law, disclosure of an ABN is required for those individual investors who are a sole trader.

We reserve the right not to accept (wholly or in part) any application for any reason or without reason. No interest is received on application monies, including monies for additional investments, and no interest will be paid to you if for any reason your application can not be accepted.

Indirect investors

If you are investing via an IDPS, please do not complete our Application Form. Instead, complete the forms the IDPS operator requires and if you have further enquiries, that operator can help. We authorise the use of this PDS as disclosure to investors who invest via an IDPS.

Cooling off period

If you are a retail client (as defined in the Corporations Act) and are investing directly in the Fund, you have a 14 day cooling off period in relation to your investment.

The cooling off period applies if the investment into the Fund is either new or additional and is not a reinvestment of distributions, and where you have not exercised any rights conferred by the investment during the cooling off period. You may exercise your cooling off rights within a period of 14 days commencing on the earlier of the time your application is confirmed, or the end of the fifth Business Day after your Units are issued.

In the event you exercise your cooling off rights the amount you receive will reflect any movement (either up or down) in the Unit price which means there may be capital gains tax implications for you. We may also be obliged to deduct any tax or duty incurred by us and reasonable administrative and transaction costs. As a result, the amount returned to you may be less than the amount initially invested.

Cooling off rights do not apply where the Fund is not liquid (as defined in the Corporations Act).

Complaints resolution

We aim to resolve any concerns or complaints quickly and fairly. If you have a concern or complaint about any aspect of your investment in the Fund, please contact us at:

Pinnacle Fund Services Limited

PO Box R1313, Royal Exchange NSW 1225

Email: teamcompliance@pinnacleinvestment.com.au | Tel: 1300 010 311

We are a member of and participate in the Financial Ombudsman Service Ltd ('FOS'), an independent complaints resolution organisation. If you feel your complaint has not been satisfactorily resolved you are entitled to make a complaint to FOS at the following address:

Financial Ombudsman Service Ltd

GPO Box 3

Melbourne VIC 3001

☎ 1800 367 287 ☎ 03 9613 6399

Investors investing through an IDPS should, in the first instance, contact the IDPS operator.

9 Other information

Keeping you informed

As an investor in the Fund, you will receive:

- confirmation of your investments, withdrawals and switches;
- an annual tax statement;
- a periodic statement detailing the transactions during the period and the balance of your investment;
- a distribution statement, following each distribution; and
- the annual accounts for the Fund.

Availability of documents

If the Fund becomes a disclosing entity for Corporations Act purposes and subject to regular reporting and disclosure obligations, copies of documents lodged with ASIC may be obtained from, or inspected at, an ASIC office.

A copy of the annual financial report for the Fund most recently lodged with ASIC can be obtained free of charge from us upon request.

If the Fund becomes a disclosing entity, we will satisfy our continuous disclosure obligations for the Fund by publishing material information on our website at www.solariswealth.com.au.

Accordingly, given the disclosure of material information will be made on our website, we will not be required to lodge continuous disclosure notices for the Fund with ASIC.

Consent

Solaris has consented for the inclusion of the statements about Solaris and its investment style, principles and process in section 1 in the form and context in which those statements are included.

Additional information, privacy and effect of application form

We may provide you with information about the Fund and your investment and collect and disclose your personal information. Also, by signing and returning the Application Form you are agreeing to certain matters.

You should read the important information about 'Privacy' and 'Additional information' before making a decision. Go to 'Additional Information to the PDS' at www.solariswealth.com.au. The material relating to 'Privacy' and 'Additional information' may change between the time when you read this PDS and the day when you sign the Application Form.

Terms used in this PDS

Base Fee means the fee payable to Solaris for managing the Fund's investment, as described in section 6.

Benchmark means the S&P/ASX 200 Accumulation Index.

Business Day means, subject to the Fund constitution, a day other than a Saturday, Sunday or a public holiday in Brisbane,

Queensland or Sydney, New South Wales.

Fund means the Solaris High Alpha Australian Equity Fund ARSN 128 560 159.

IDPS means Investor Directed Portfolio Service, IDPS-like scheme or a nominee or custody service (collectively known as master trusts or wrap accounts).

Outperformance means performance in excess of the Performance Hurdle.

Performance Fee means the fee which may be payable to Solaris depending on the Fund's performance, as described in Section 6.

Performance Hurdle means the Benchmark return plus 2% p.a. calculated daily.

RE means the responsible entity of the Fund, Pinnacle Fund Services Limited ACN 082 494 362.

Solaris or **Investment Manager** means Solaris Investment Management Limited ACN 128 512 621.

Unit means a Class B unit in the Fund, being the High Alpha Fee Class.
